

**JOURNAL**

**OFFICE OF LEGISLATIVE COUNSEL**

**Tuesday - 13 November 1962**

25X1 1. [ ] William Saltonstall in the office of  
25X1 Senator Laverett Saltonstall called in connection with the [ ]  
case. Saltonstall pointed out that he had gone to school with [ ] and  
was interested in the case and had written the letter to General Carter  
which the Senator signed. He indicated he hoped we were going to be  
able to take care of some of the medical bills and also mentioned the  
security point. I told him we were pulling this together and would be  
25X1 in touch with him soon. In the meantime, Saltonstall indicated [ ]  
father is in Alexandria staying with a member of his family at the  
25X1 telephone number [ ] and wanted to talk to someone presumably  
25X1 [ ] about the matter. It was agreed I would have [ ] call

25X1 [ ] later advised he had done so and is working with the father  
on various documentation to support the medical bills for payment  
under the insurance policies. Further, a detailed letter has been  
prepared and is going forward to General Carter.

25X1 2. [ ] I called Mr. Dean Howells, State Department,  
25X1 to check on the status of the letter State agreed to prepare for the Director  
25X1 to use in transmitting to the Joint Committee on Atomic Energy [ ]  
25X1 (See Journal of 7 November.) Howells indicated the Department was  
25X1 "dragging its feet" somewhat in preparing this letter because of the [ ]  
Desk's concern over possible congressional leaks on a matter involving  
25X1 [ ] security particularly at this time.

Howells called back later in the day and said that arrangements  
had been made with Mr. Walter Elder for the Department to postpone  
sending the JCAE transmittal letter to us until after 25 November.

**JOHN S. WARNER**
